WATER RESOURCES DEVELOPMENT AND HEALTH

A selected bibliography

MISE EN VALEUR DES RESSOURCES HYDRIQUES ET SANTE

Bibliographie sélective

by

Jacques Deom, Senior Scientist
Parasitic Diseases Programme

The following bibliography is a completely revised edition of the documents issued in 1975, 1976 (bibliography) and 1977 (first addendum) under symbols MPD/75.4, MPD/76.6 and MPD/77.7. These documents should now be discarded.

The scope of this new edition remains the same as previously, encompassing documents and publications on the effects of water resources development projects, such as man-made lakes, irrigation networks, small water impoundments, etc. on health in the widest sense. The number of references, however, has increased from about 470 in the first edition (1975) to 1250. An index to titles has been compiled, which we hope will considerably assist the user in consulting the bibliography. The literature search for this new edition was concluded on 31 October 1980.

La présente bibliographie constitue une édition complètement révisée des documents publiés en 1975, 1976 (bibliographie) et en 1977 (1er supplément) sous les numéros MPD/75.4, MPD/76.6 et MPD/77.7. Tous ces documents devraient maintenant être détruits.

Le domaine couvert par cette nouvelle édition reste le même que précédemment. Il comprend des documents et publications traitant des effets sur la santé, au sens le plus large, des projets de mise en valeur des ressources hydriques, tels que lacs de retenue, réseaux d'irrigation, petites collections d'eau, etc. Le nombre de références est toutefois passé d'environ 470 dans la première édition (1975) à 1250. Un index des titres a été ajouté, ce qui, nous l'espérons, facilitera considérablement la consultation de la bibliographie. En outre, une liste des termes français renvoyant aux rubriques de l'anglais figure à la fin de l'index. Les recherches bibliographiques pour la préparation de cette nouvelle édition ont été arrêtées le 31 octobre 1980.

Earth Sciences Library

The issue of this document does not constitute formal publication. It should not be reviewed, abstracted or quoted without the agreement of the World Health Organization. Authors alone are responsible for views expressed in signed articles.

Ce document ne constitue pas une publication. Il ne doit faire l'objet d'aucun compte rendu ou résumé ni d'aucune citation sans l'autorisation de l'Organisation Mondiale de la Santé. Les opinions exprimées dans les articles signés n'engagent que leurs auteurs.

In preparing this new edition, we have taken into account, as far as possible, the requirements of its users and have tried to list all pertinent references, including published material which concerns other fields but that might be relevant to water resources development, as well as general background information.

Lors de la préparation de ce document, nous avons tenu compte, autant que possible, des besoins de ses utilisateurs et nous avons essayé d'y inclure toutes les références pertinentes, y compris des articles concernant d'autres domaines qui pourraient se rapporter à la mise en valeur des ressources hydriques, ainsi d'ailleurs que des informations de base.

Enquiries and requests for documentation should be addressed to the Director, Parasitic Diseases Programme, World Health Organization, 1211 Geneva 27, Switzerland.

Les demandes de renseignements ou de documentation doivent être adressées au Directeur du Programme des Maladies parasitaires, Organisation mondiale de la Santé, 1211 Genève 27, Suisse.

We also wish to thank all those who have helped in the preparation of this new edition, especially Mrs A. Bard, Mrs J. Bernard-Kirukhine, Miss M.M. Porritt, who prepared the index, and Mrs J. Rosset.

Nous remercions aussi tous ceux qui nous ont aidé dans la préparation de cette nouvelle édition et spécialement Mme A. Bard, Mme J. Bernard-Kirukhine, Mlle M.M. Porritt, qui a préparé l'index et Mme J. Rosset.

Kenya dams, 838
Kidatu dam (Tanzania), 736
Kikatami valley (Japan), 371
Koulbi, see Noumbiel
Kossou/Bandama valley (Ivory Coast), 57,
101, 165, 186, 238, 278, 287, 340,
360, 678, 894, 961, 962, 1012

Limpopo river (Botswana/Mozambique/
South Africa), 111, 789, 802
Lindu lake and valley (Indonesia), 256,
315, 316
Lufira reservoir (Zaire), 227, 718, 725,
787, 924, 925, 926, 950, 951, 952,
953, 958
Lusitu tragedy, 466

Malumfashi research project (Nigeria),
920, 921, 1094, 1095
Mandara dams (Cameroon), 959
Mbakaou dam (Cameroon), 15, 959
Mekong river basin, 576, 586, 775, 778,
821, 1054, 1055, 1249
Mesilla valley (USA), 455
Mu river irrigation area (Burma), 1117
Mwea irrigation settlement (Kenya), 243
Mtera lake (Kenya), 737

WATER RESOURCES DEVELOPMENT, SPECIFIC
PROJECTS (continued)

Nagarjunasagar project (India), 55
Naivasha lake (Kenya), 858
Nam Ngum dam (Laos), 9, 160, 361, 1055
Nam Pong lake (Thailand), 1061
Napu valley (Indonesia), 222, 223
Nasser lake (Egypt/Sudan), 173, 313,
335, 337, 342, 394, 486, 504, 529,
772, 999, 1011, 1113, 1246, see also
Aswan High Dam
New Valley (Egypt), 398
Niari valley (Congo), 730
Niger dams and river basin (Nigeria),
177, 461, 462, 639, 681, 773, 873,
965, 1094
Nile (Egypt/Sudan), 18, 189, 311, 335,
342, 394, 590, 591, 637, 638, 680,
695, 719, 812, 984, 989, 1239, see
also Aswan High Dam; Nasser lake
- Nile delta, 136, 823, 1154
- White Nile, 694, 785, 982, see also
Gebel Auliya
Nong Wai irrigation area (Thailand), 516
Noumbiel/Koulbi impoundment area (Upper
Volta), 230, 231, 832
Nozha hydrodrome (Egypt), 986
Nubariya project (Egypt), 1004, 1005
Nubia lake, see Nasser lake

Ob basin (USSR), 666
Ord river (Australia), 16, 61, 1068
Oueme valley (Benin), 107

Pampulha lake (Brazil), 76, 77
Parana river (Brazil), 211
Paraiba do Sul river (Brazil), 351
Plata river basin, 212, 214
Pongola river (South Africa), 891, 916
Puerto Rico reservoirs, 614

Rahad irrigation area (Sudan), 575
Rio Grande (Brazil), 123, 503
Ruaha dam (Tanzania), 974
Ruzizi plain (Zaire/Burundi/Rwanda), 1049

Sahara, 807
Senegal river, 34, 795, 1175
Shebelli river (Somalia/Ethiopia), 95,
1057
Shing Mun dam (China), 566
Sidi Mohammed Ben Abdullah dam
(Morocco), 17
Snowy Mountain scheme (Australia), 492
Sourou valley (Upper Volta), 1149
Souss plain (Morocco), 65
Sudano-Sahelian zone, 1134
Suez Canal, 400, 401, 402, 790, 791
Suriname reservoirs, 1202, see also
Brokopondo

WATER RESOURCES DEVELOPMENT, SPECIFIC
PROJECTS (continued)

Tafilalet dam (Morocco), 339
Takanpur reservoir (India), 1150
Tana river (Kenya), 330
Tarbela dam (Pakistan), 12, 152, 645
Tasmanian reservoirs, 754
Thailand dams/reservoirs, 515, 516, 1046
Thapanzeik dam (Burma), 1117
Tororo dam (Brazil), 75
Tseng-Wen reservoir (China, province of
Taiwan), 1092

Ubolratana dam (Thailand), 1069
Usutu river basin (Swaziland), 1243

Vaal dam (South Africa), 255, 558, 917
Valencia lake (Venezuela), 247
Victoria lake, 112, 410
Volta lake and river basin, 56, 156,
157, 158, 159, 187, 232, 233, 249,
251, 262, 403, 404, 409, 412, 453,
490, 509, 542, 543, 565, 569, 599,
610, 624, 630, 659, 665, 674, 675,
676, 677, 714, 801, 831, 835, 836,
847, 865, 866, 868, 869, 870, 871,
884, 886, 887, 889, 890, 895, 896,
947, 1071, 1152, 1156, 1158, see also
Akosombo

Wadi Tuban watershed (Yemen), 1000

Yabucoa watershed (Puerto Rico), 328
Yaoundé impoundment (Cameroon), 470

Zambesi river (Botswana/Mozambique/
South Africa), 39, 100, 802, see also
Cabora Bassa
Zimbabwe reservoirs, 629

WATER TABLE (Egypt), 1004, 1005

WATERWEEDS, see under Vegetation as related
to water resources development

WHO'S ROLE IN WATER RESOURCES DEVELOPMENT
FOR AGRICULTURE, 1226

WILDLIFE

arbovirus isolations (Kenya), 622

herd estimation by aerial photography
(Nigeria), 461

rescue in flooded areas, 141

see also Rodents, role in
schistosomiasis transmission

TERMES FRANCAIS RENVOYANT AUX RUBRIQUES DE L'ANGLAIS

N.B. Les termes identiques ou très semblables à ceux de l'anglais ne sont pas repris dans cette liste (par exemple:écosystèmes / ecosystems, vertébrés / vertebrates, etc.)

Agriculture, développement	Agricultural development
Aliments et alimentation	Food and nutrition
Animaux de laboratoire (d'expérience)	Experimental animals
Aspects socioéconomiques	Socioeconomic aspects
Barrages	Dams
Bassins de refroidissement	Cooling ponds
Bassins de rivières, mise en valeur	River basin development
Bétail	Livestock
Bilharziose	Schistosomiasis
Bilharziose bovine	Bovine schistosomiasis
Bonification agricole	Land reclamation
Canaux	Irrigation
Cécité des rivières	Onchocerciasis
Chimiothérapie	Chemotherapy
Composition de l'eau	Water composition
Conséquences thermiques	Thermal consequences
Contacts hydriques	Water contact
Croissance des populations	Population growth
Déchets, élimination	Waste disposal
Délassement, eau	Recreational use of water
Destruction des larves	Insects and insecticiding
Développement rural	Agricultural development
Distomatose	Fascioliasis
Dracunculose	Dracunculosis
Drainage	Irrigation and drainage
Eau	Water
Eau, composition	Water composition
Eau, contacts	Water contact
Eau, maladies	Waterborne diseases
Eau, mise en valeur des ressources	Water resources development
Eau, modification du niveau	Water level management

Eau potable	Drinking water
Eau, réserves souterraines	Underground water reserves
Eau, usages multiples	Multipurpose use of water
Eau, vitesse d'écoulement	Water flow velocities
Ecologie humaine	Human ecology
Economie, études	Economic studies
Education sanitaire	Health education
Egouts	Waste disposal
Elimination des déchets	Waste disposal
Entomologie	Insects and insecticiding
Environment, impact	Environmental impact
Erosion côtière	Coastal erosion
Etangs, mise en valeur	Pond management
Etudes économiques	Economic studies
Evaluation	Planning and project estimation
Exploitation des terres, mise en valeur	Land use and development
Faune aquatique	Aquatic snails, benthic fauna, non-target fauna
Faune benthique	Benthic fauna
Faune sauvage	Wildlife
Feux de forêts	Forest fires
Filaire de Médine	Dracunculosis
Force hydraulique	Water power
Formation	Research and training
Génie civil	Engineering
Géographie	Geographical studies
Histoire	Historical studies
Hygiène individuelle	Personal hygiene
Hydrobiologie	Hydrology
Hydrologie	Hydrology
Indicateurs de santé	Health indicators
Industrie, développement	Industrial development
Ingénierie	Engineering
Inondations	Floods
Lacs	Lakes
Lacs de retenue	Reservoirs, impoundments and other manmade lakes
Lacs de savane	Savanna lakes
Législation	Legal aspects

Limnologie	Hydrology
Lutte anti-vectorielle	Insects
Malacologie	Aquatic snails
Maladie du sommeil	Trypanosomiasis
Maladies à vecteurs	Vectorborne diseases
Maladies liées à l'eau	Waterborne diseases
Maladies parasitaires	Parasitic diseases
Marais, marécages	Marshes, swamps
Mares, mise en valeur	Pond management
Médecins	Physicians
Migration	Population movement
Mise en valeur	Land use and development
Mise en valeur agricole	Agricultural development, land reclamation
Mise en valeur, bassins de rivières	River basin development
Mise en valeur industrielle	Industrial development
Mise en valeur, ressources hydriques	Water resources development
Mise en place de populations	Population movement
Molluscicides	Aquatic snails and their control
Mollusques aquatiques	Aquatic snails
Mollusques hôtes	Aquatic snails
Moustiques	Insects
Nappe aquifère (nappe phréatique)	Water table
Niveau de l'eau, modification	Water level management
OAA	FAO
OMS	WHO
Organismes internationaux	International bodies
Organismes marins	Marine life
Organismes non-cible	Non-target fauna
Parasitoses intestinales	Intestinal parasitism
Paysages, paysagisme	Landscaping
Planification	Planning and project estimation
Plantes aquatiques	Vegetation
Poissons, pêches	Fish and fisheries
Pollution, cours d'eau	Stream contamination
Population, mobilité	Population movement
Programmation sanitaire	Health programming
Progrès socioéconomique	Socioeconomic development
Psychologie	Psychological studies

Recherche	Research and training
Réserves souterraines d'eau	Underground water reserves
Rivières	Rivers
Rongeurs	Rodents
Routes	Highways
Salinité	Salinity
Sanitation	Waste disposal
Santé et médecine	Health and medicine
Sécheresse	Drought
Sédiment	Sediments; silt
Séismes, séismologie	Earthquakes
Serpents, capture	Snake capture
Sol, mise en valeur	Agricultural development
Techniques nucléaires	Nuclear techniques
Température	Thermal consequences
Transfert technologique	Technology transfer
Tremblements de terre	Earthquakes
Usages domestiques de l'eau	Domestic use of water
Usages multiples de l'eau	Multipurpose use of water
Variole	Smallpox
Vecteurs	Insects, vectorborne diseases
Végétation aquatique	Vegetation
Zones arides	Arid zones
Zones côtières	Coastal areas
